DESIRED POSITION

I am switching from Senior IT Engineer position to Junior Software Engineer as a first step approach. I've been working in IT sector as an engineer for 17 years and I am willing to have new challenges, and the developer position was always in my dreams, which I was ignoring until now. To make my transition smoother I am attending JavaScript 5.5 month full time courses which will be finished at the end of November. I am studying JavaScript, Node.js HTML/CSS and React, so my primary interest is JavaScript Frontend or Full stack junior developer position .

EDUCATION

2000 - 2004 **ENGINEERING INFORMATICS, BACHELOR'S DEGREE**
VILNIUS GEDIMINAS TECHNICAL UNIVERSITY
